You Make Me Feel Alive

I would walk, chatter, forever drive
Goin' in circles, I existed, so busy, so numb
You appeared and made me come alive
made me laugh, feel, peak and some

But OH did we miss our chance,
and now... I can't stand being apart
While-others-I-can-hold-and-kiss-and-dance
And try to share my heart

It's you I miss, cause you made me feel alive

YOU make me feel alive
YOU make me feel alive
YOU make me feel alive
YOU make me feel alive

The days were full when my lips kissed your eyes
I can feel how you held me tight
Your laughter and your sighs
You always filled my night

I shoulda' grabbed that moment passing through,
But I hesitated and now I fall,
Now I get mad at time too
Cause I want to pick up the phone and call

Now I get mad at time for having passed since I last saw you
My heart believed, but my mind couldn't explain
Oh you, oh you, oh you
So I let you go, now I feel insane

Yeah, your magic made me come alive,
Cause you make me feel alive
Yeah, you make me feel alive,
You made me feel alive,
Yeah, you make me feel alive,
